

Chrome DevTools Implementation Report

Name: Patrick Banting

Assignment: HW10 - Chrome DevTools

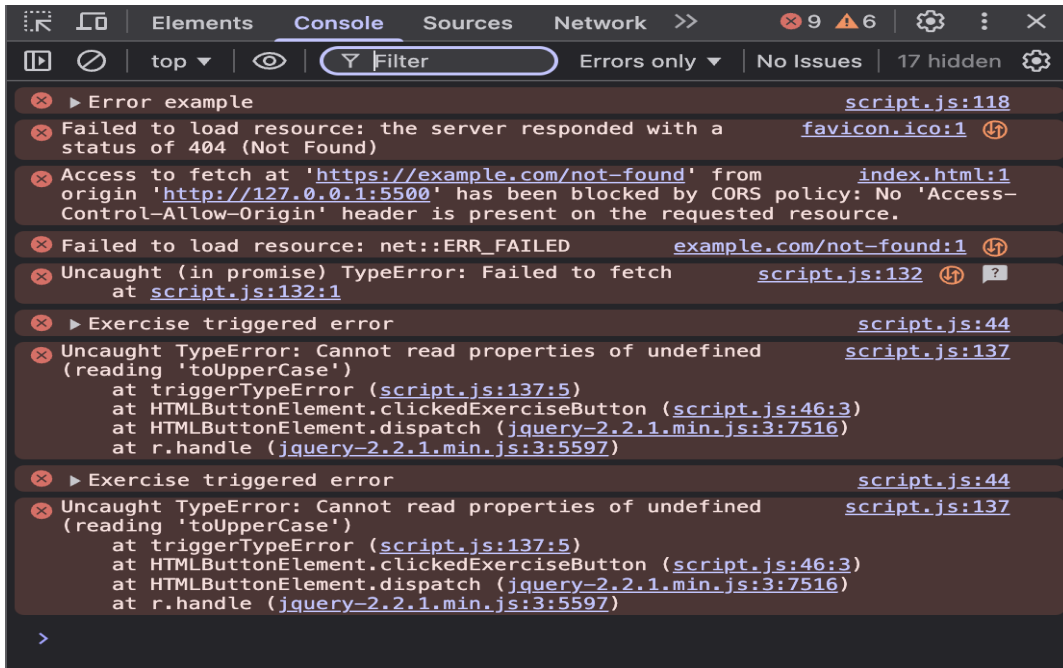

Message Logging

Console logging methods including log, info, warn, error, table, and grouped messages.

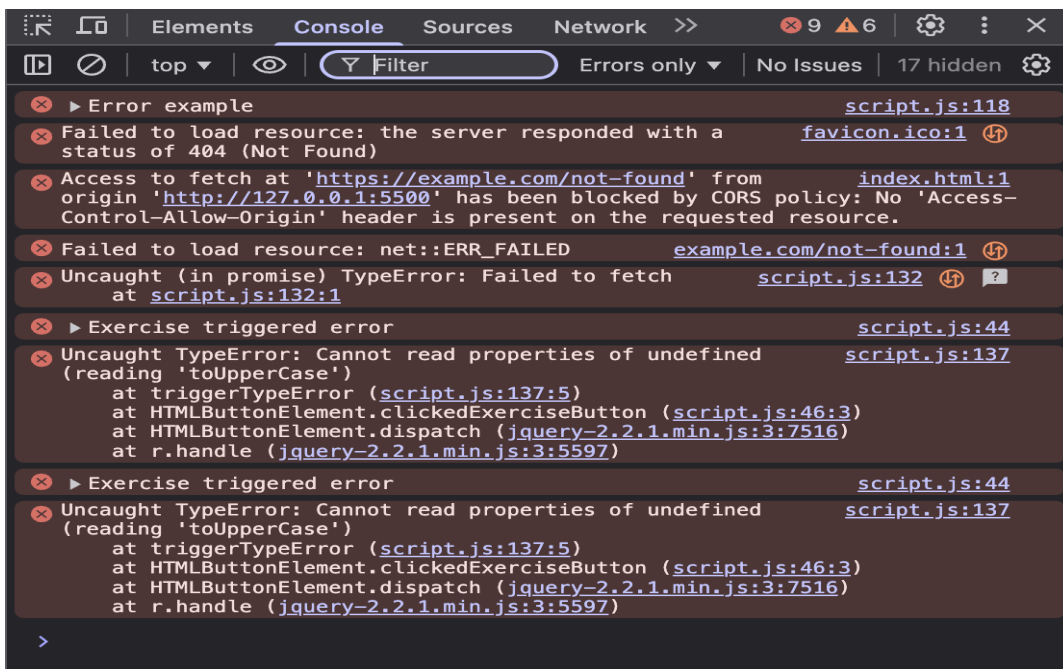

Errors

Examples of 404 error, fetch error, and TypeError triggered in the application.

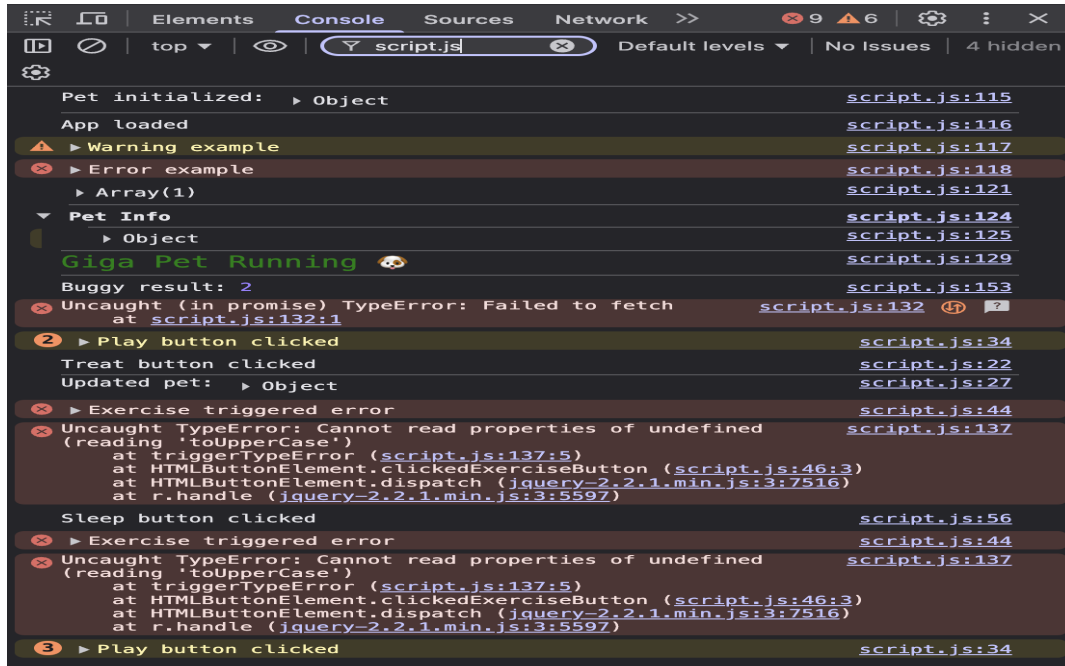

Filter by Log Level

Console filtered to show only error-level messages.

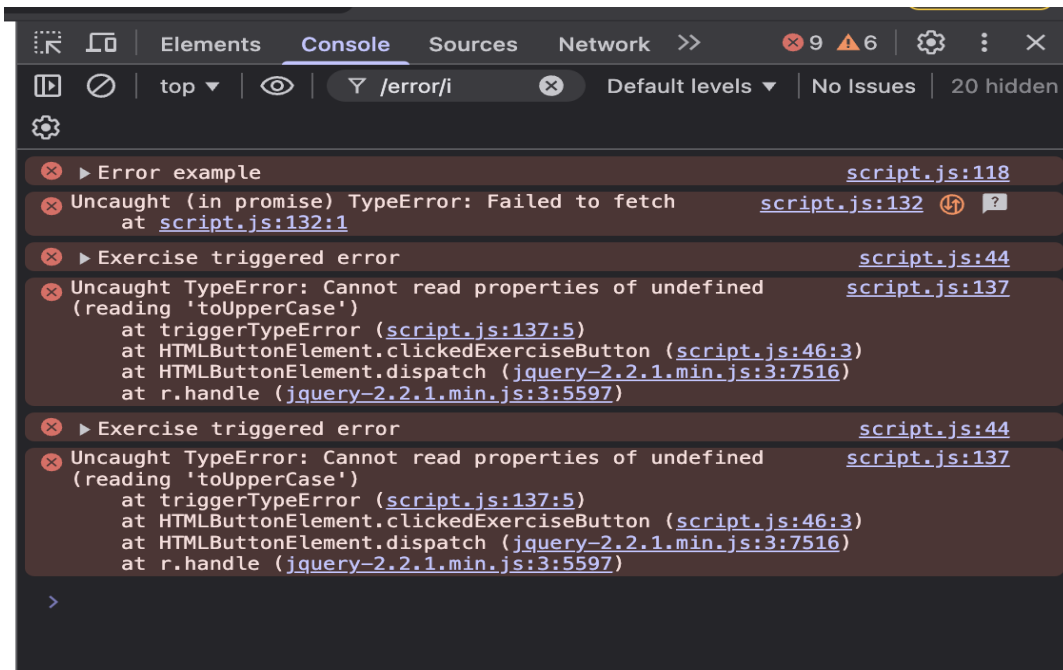

Filter by Source

Console filtered to show only messages from script.js.

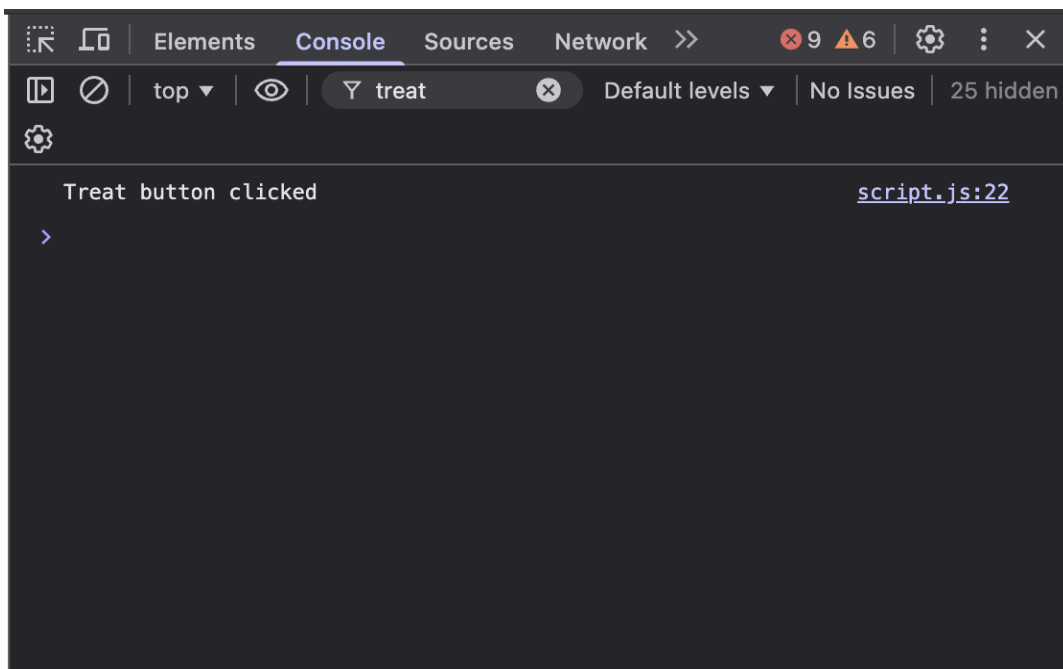

Filter by Regex

Console filtered using regular expression /error/i.

Filter by Text

Console filtered using the keyword 'treat'.

User Messages

Console showing primarily user-generated logs with reduced browser noise.
